CENTRE**

**Ally Johnston  
Area Youth & Community Officer**

**ALCOHOL  
QUESTIONNAIRE**

## **IN BRIEF**

### **INTRODUCTION**

**This questionnaire has been undertaken by youth workers from WBC Youth Service, Central Area Team, as an agreed action from the North and South Thatcham, Neighbourhood Action Group.**

**72 young people from a cross section of young people in contact with WBC Youth Service, and of mixed Gender between the ages of 11-19, took part in this questionnaire.**

**The questionnaire was undertaken in Dec 2007.**

### **CONTENT**

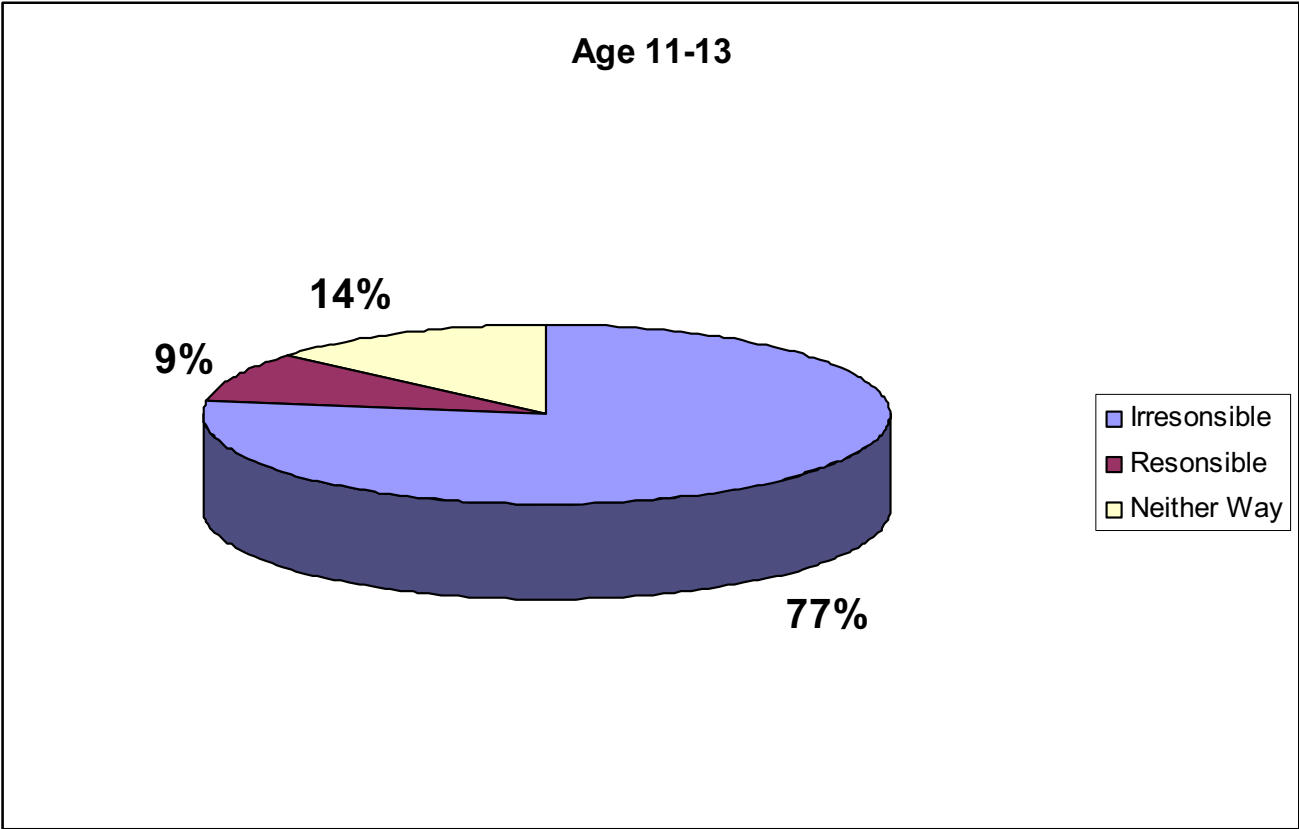

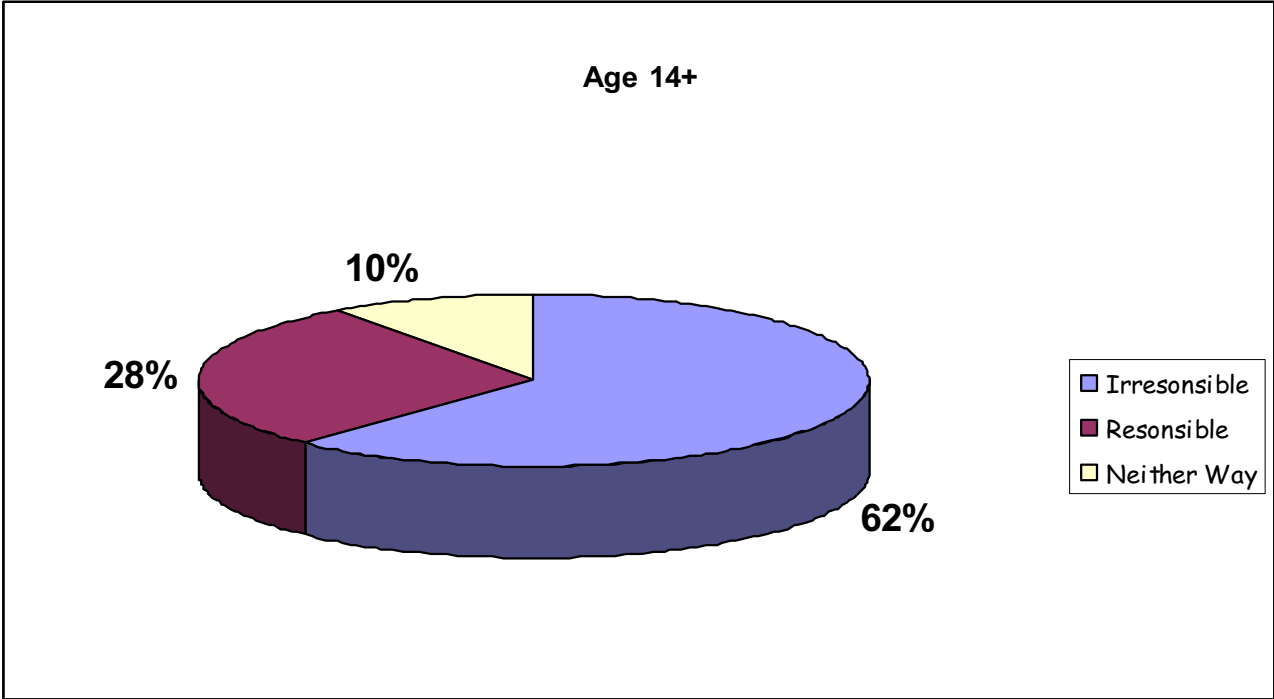

**The results of this questionnaire should be seen as an on-going piece of work, as it is felt that the results themselves have yielded much more than that presented for this meeting.**

**The ages of the young people are presented as two groups, 11-13 and 14+, as it was felt that this would give a better picture, if there were to be a trend of the development of young people's alcohol consumption, that can be measured at a later date**

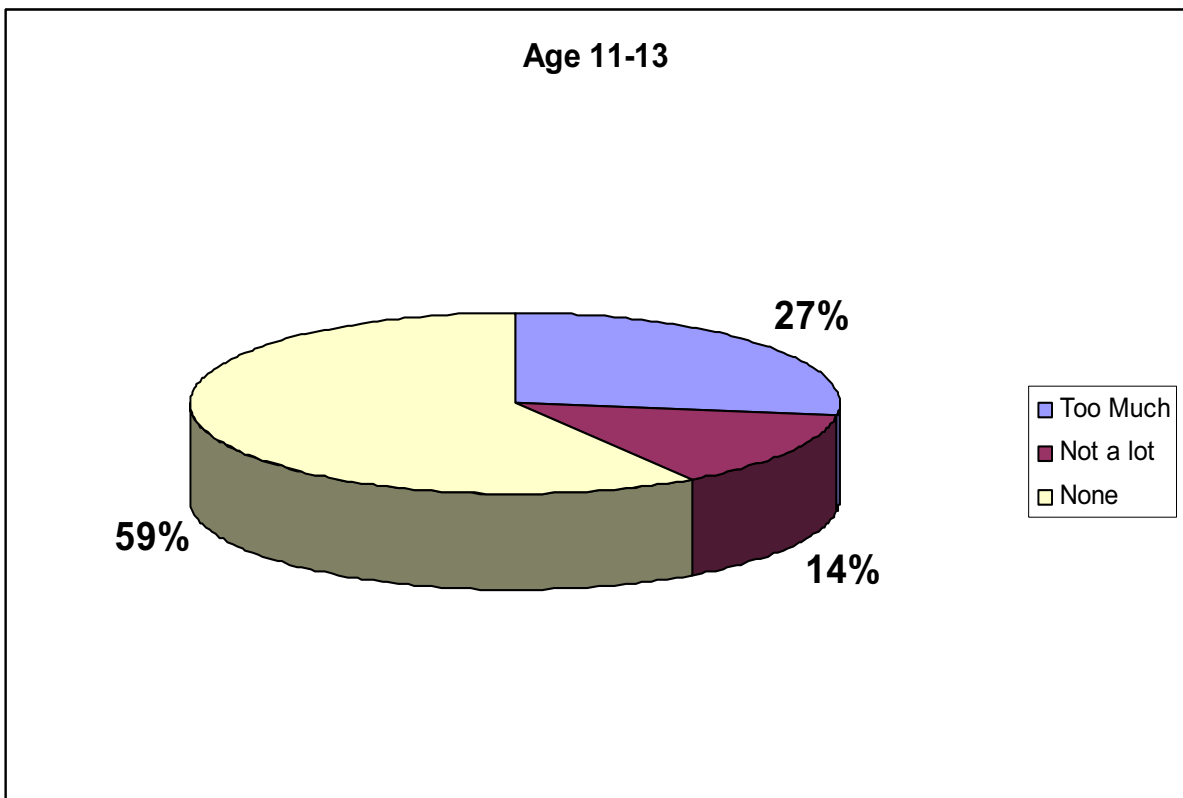

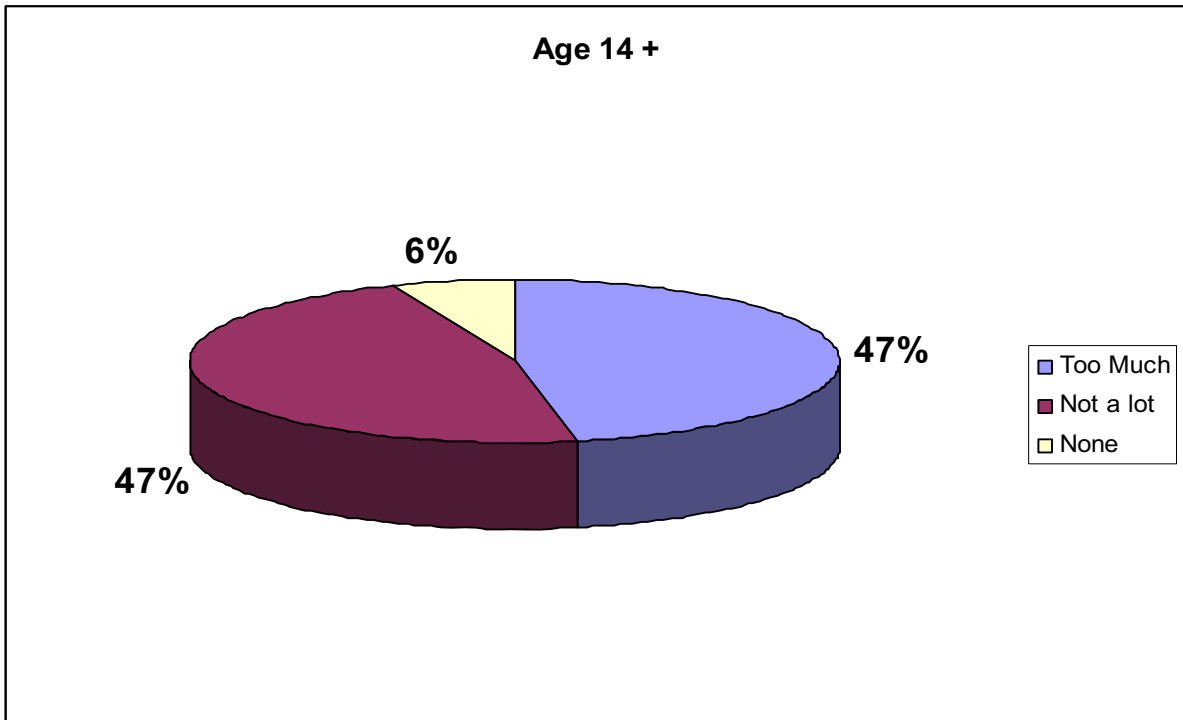

### **CONCLUSION**

**It is my intention from a youth work perspective, to look at these trends to develop specific areas of work with young people. In addition the information yielded by the younger age group will help inform the direction of youth work in prevention/ development work, around the use and abuse of alcohol.**

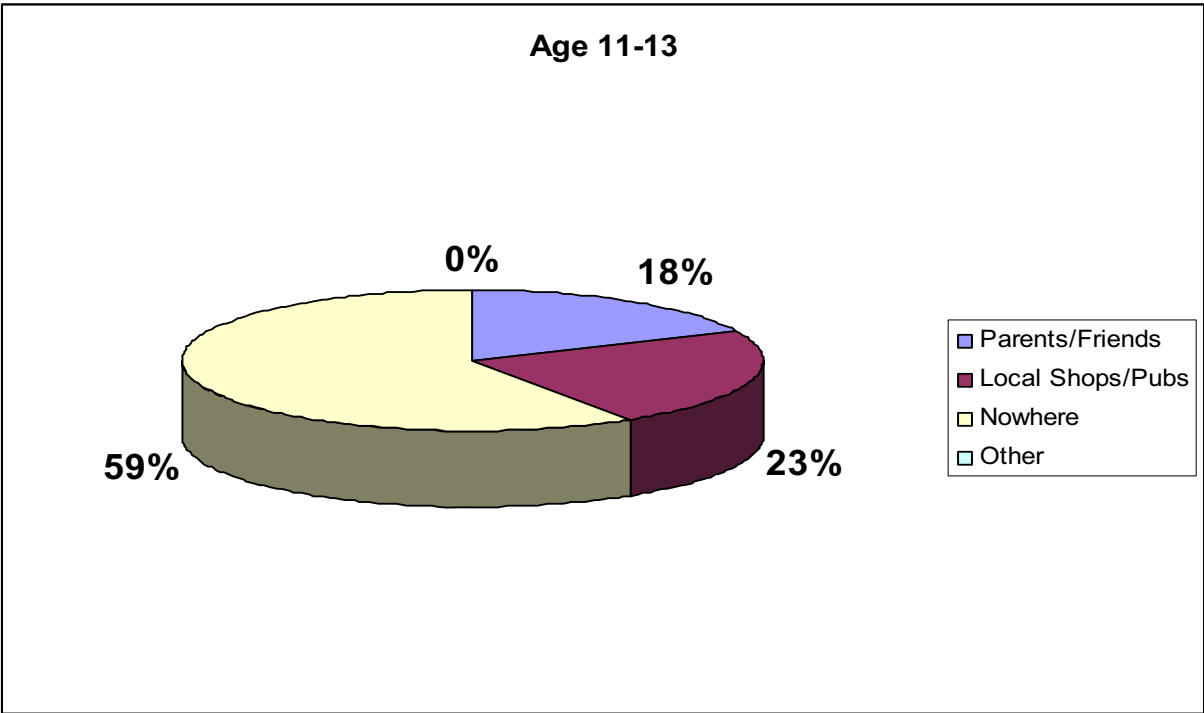

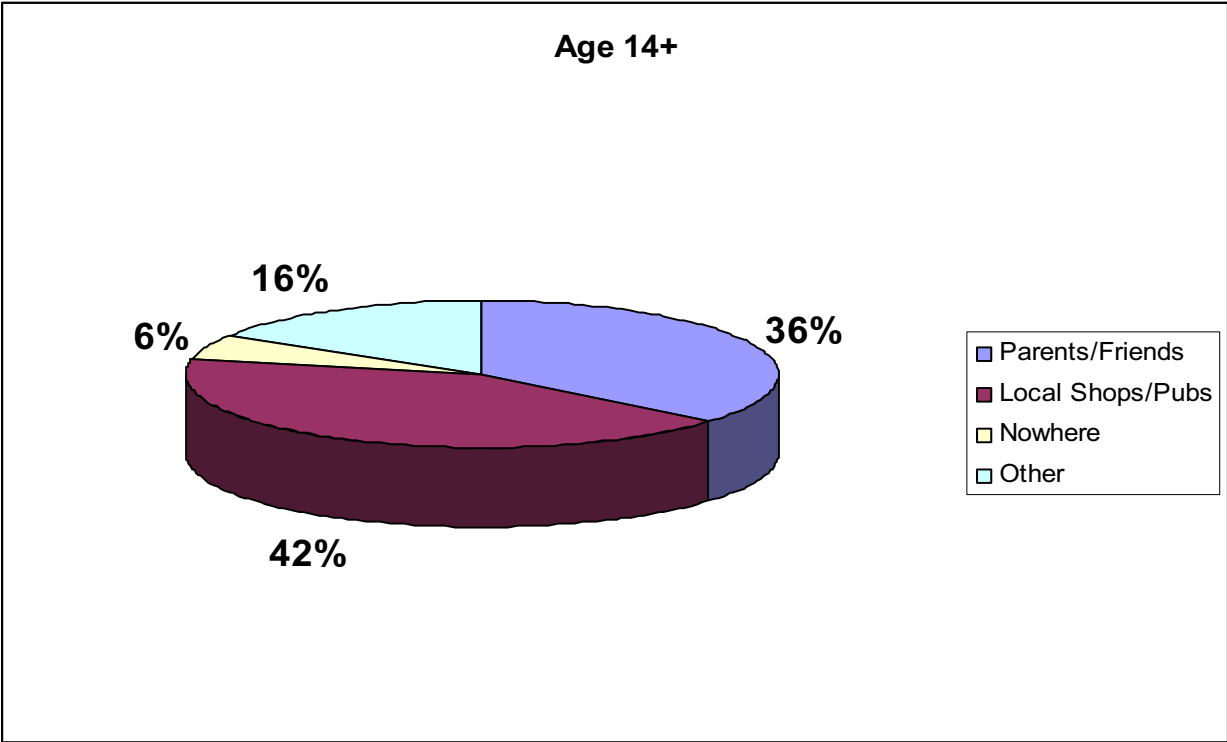

**How Responsible Do You Think It Is For Older People to Supply Young People With Alcohol?**

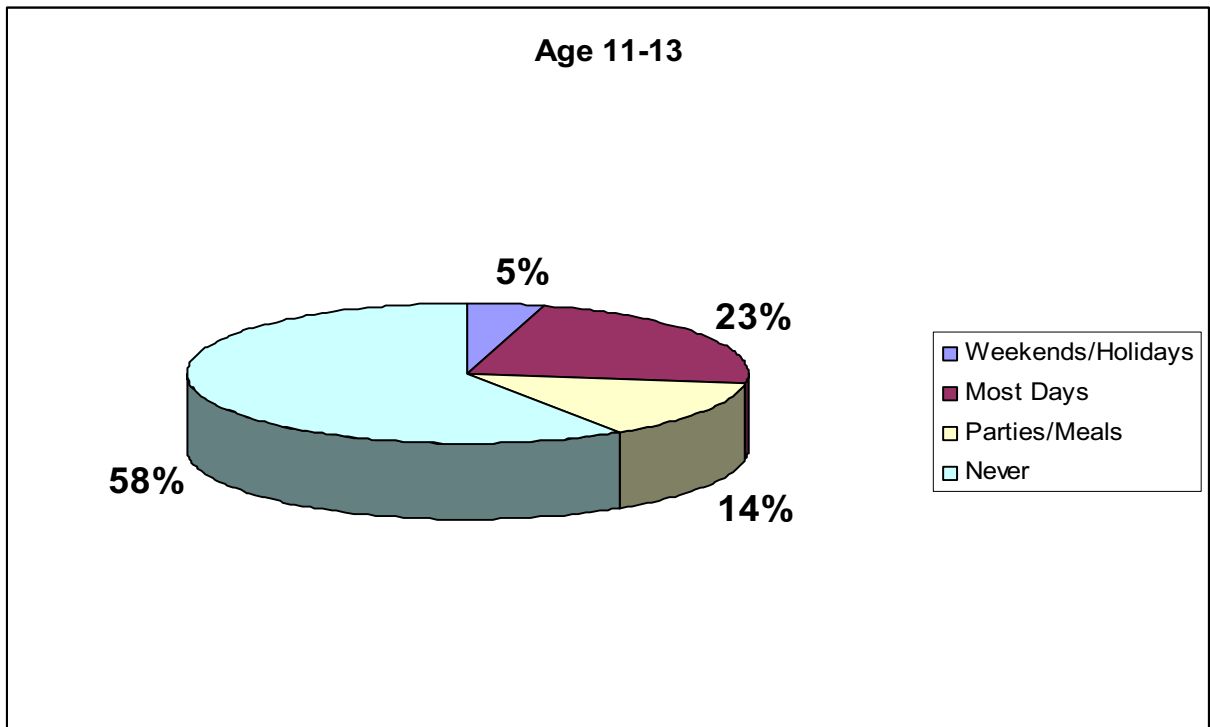

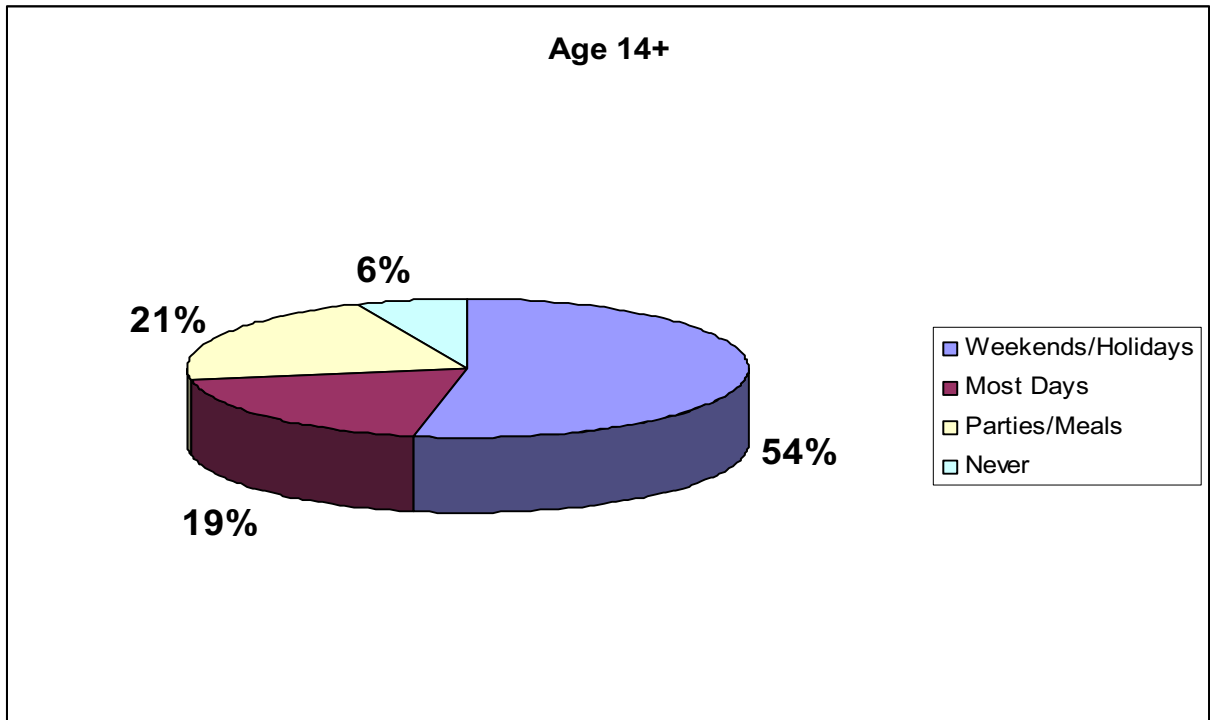

## How Much Alcohol Do You Drink?

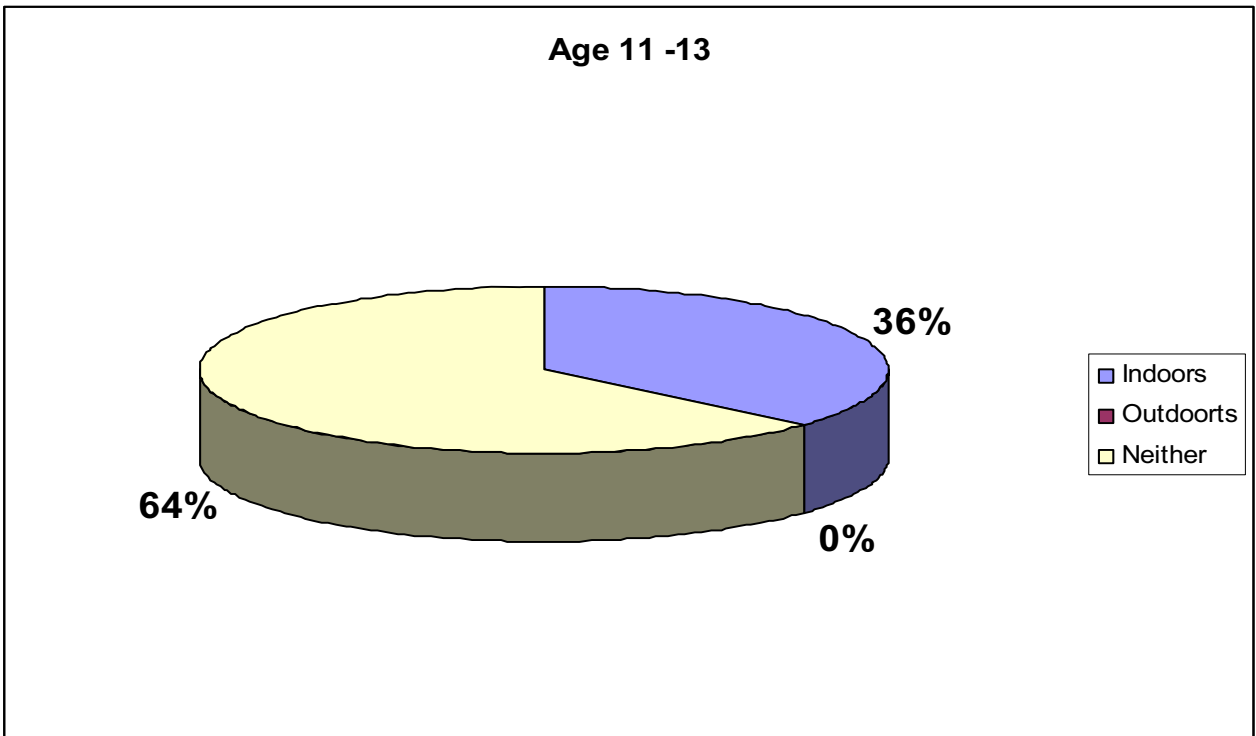

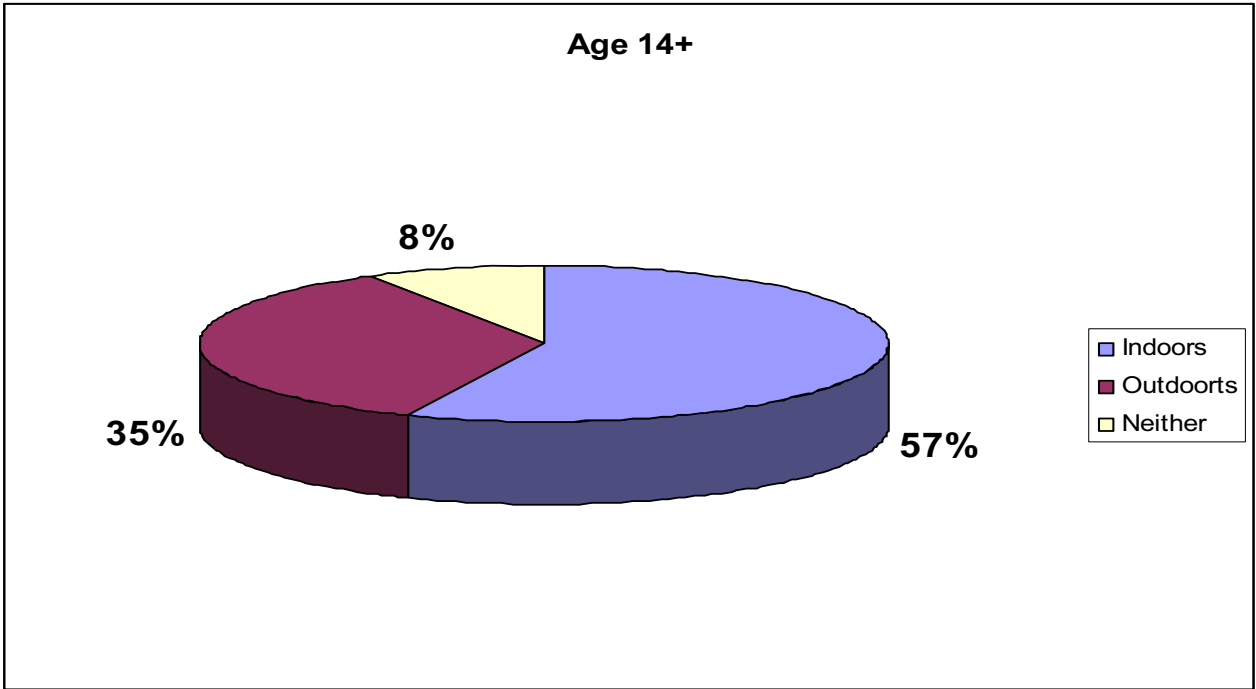

# Where Do You Get Your Alcohol From?

## When Do You Drink Alcohol?

## Where Do You Drink Alcohol?

# Why Do You Drink Alcohol?
