**Source:** Thames Valley Crime Recording System - Niche - offences recorded from 29 April 2014

Please note that the total number for Recorded Hate Crime (included in above crimes) and Incidents does not include Racially or Religiously Aggravated Crime as these are counted in the crime figures

Following the introduction of Niche RMS the number of crimes with a domestic abuse qualifier that have been finalised as domestic abuse under the national definition has fallen from around 94% to around 80%. At the same time the number of domestic abuse non crime occurrences has fallen from around 70% to around 40%. This is due to the fact that key information to identify whether an occurrence is compliant with the national definition has not been recorded. Additional records which meet the criteria but which do not have the domestic qualifier are also included.

**Note:** The data provided is taken from our crime recording system. This is a dynamic system. Additional information identified during the investigation may lead to a reassessment of the crime classification. Information held on the system is also subject to review to ensure compliance with the Home Office Counting Rules for Recording Crime and the National Crime Recording Standard. As a result of this crime levels and classifications may change over time and this data may not match data previously published or data published in the future. For this reason, the data should only be used as an indicator of crime trends.
