

Thames Valley Police - Stop and Search Quarterly Data

Quarter 2: 01 Jul 2023 - 30 Sep 2023

Ethnicity Changes and Calculations

Reporting on ethnicity occurs in a number of ways, and how we use it in analysis can be a bit complex. Officers will ask individuals for how they define their own ethnicity and record this under 'Self Defined Ethnicity'. Officers also record their own perceptions of the individual's ethnicity under 'Officer Perceived Ethnicity'. Evidently, it is often the case that individuals refuse to define their own ethnicity and these will be recorded as 'not stated'.

In this report we combine Officer Perceived with Self Defined where an individual has refused to state their ethnicity.

However, there is a page that doesn't do this. This is the 'Not Stated by Individual: LPA breakdown' page.

Where the page does not use Officer Perceived as a substitute when an individual has refused their self-definition this will be made clear on the page.

Please note, a population table is now provided at the end of the pack.

Disproportionality calculations

This analysis uses the *Relative Rate Index (RRI)*, otherwise known as a disproportionality ratio. This allows for quick and easy measurement of disproportionality at various different decision points.

An RRI of 1 means there is no racial disproportionality between groups. Disproportionality is greater the further away from 1 the number is.

Let's say, for example, that the Asian disparity ratio was 1.3. We could express this as 'Asian people are 30% more likely to be stop and searched than White individuals'.

Disproportionality is calculated using the following formula: (searches of ethnic minority/population of ethnic minority)/(searches of white people/white population)

Per 1000

This is calculated through the following formula: number of searches/(divided by population/1000)

Information Page

There have been updates to the design of the pack. This is due to a new method of data sharing that improves the quality of the data underlying the pack, but also means that some visualisations have not been possible to reproduce. Every effort has been made to be as faithful as possible to the old design, but there are instances where this has not been possible. Improvements have been sought to certain pages as well to visualise in a more user friendly way. Explanations are now also provided on each page of what the visuals show.

This pack covers Quarter 2 in the Financial Year 2023-2024, or 01/07/2023-30/09/2023.

There were 4073 searches in Q2 with an overall disproportionality ratio of 2.01. There were 1.62 searches per 1000 of the population. Body Worn Video compliance remained high, with 141 searches without it being used.

Disproportionality remained highest for those of Black ethnic origin with a ratio of 4.28. This means a Black person was around 4 times as likely to be searched as a White person in Q2. This group also had the highest disproportionality ratio for both drugs and weapons searches.

A new page has also been added to look at find rates and section 60 searches, of which there were 129 in Q2. The primary positive outcome rate for all searches was 27.6%, meaning the item searched for was found 27.6% of the time.

Total number of searches.

This quarter 4073.

TVP Overall Disproportionality 2.01.

Searches per 1000 1.62.

Was Bodyworn Video Used?

Yes 96.54%.

No 3.46%.

Number of time force was used 1524.

Primary Positive Outcome Rate 27.6%.

TVP Stop by Ethnic Group Percentage.

White 64.33%, Asian 15.54%, Black, 13.01%, Other 2.55%.

Power Used and Outcomes

This page shows the total number of searches by LPA, and also show the powers used and outcomes. The tables entitled 'Power Used' and 'Outcome' show the Top 10 Powers Used and top 10

Outcomes. The Donut Charts show the percentage proportion of the top 5 that each Power or outcome equates to. For a population table, please see the end of the document.

Stops by LPA

Reading, Searches 581, Per 1000 3.33.

Milton Keynes, Searches 539, Per 1000 1.88.

Slough, Searches 495, Per 1000 3.12.

Page Seven, Find Rate and Section 60.

This page breaks down the find rate across TVP on the top half and then also information for Section 60 searches on the bottom.

This is a new page and so remains in development.

The tables entitled 'Positive Outcomes rate', shows the positive outcomes from searches over a two year period. The lighter blue line shows outcome rate for the object searches for, and the darker blue the find rate for objects other than that searched for.

The table next to it shows the primary and secondary find numbers for each LPA.

On the bottom half of the page you will find information relevant to Section 60 Searches.

This Includes a basic count of the number of S60 searches that quarter, and then LPAs that have had the most section 60 searches. It also shows the article found information specific to S60s along with outcomes. Finally, it shows the percentage of S60 searches conducted on ethnic minorities.

LPA Primary and Secondary Find for Quarter (Please note, where no secondary find is listed below this is because it is not visible in the visual).

Reading, Primary Find 178, Secondary Find 34.

Milton Keynes, Primary Find 146, Secondary Find 28.

Oxford, Primary Find 119, Secondary Find 35.

Disproportionality by LPA

This information is a revisualisation of data on page 8 and so is provided above.

Stop Search Weapons

This page shows the number of weapons searches that took place this quarter.

Weapons searches incorporate searches for offensive weapons, pointed/bladed articles, firearms, and crossbows.

The Table on the top left breaks down number of searches for weapons, number of searches of ethnic minorities, rate per 1000 for ethnic minorities, and then disproportionality for all ethnic minorities.

The donut chart next to it shows the different kinds of weapons search a proportion of all weapons searches.

The table entitled 'Outcomes' shows the top 10 outcomes from weapons searches.

Finally, the table entitled 'Items Found' shows how often the articles searched for were found and not found etc.

Weapons Searches 646.

Weapons Searches by LPA.

South Bucks, Searches 54, Ethnic Minority Searches 28, Per 1000 0.36, Ethnic Minority Disproportionality 3.74.

Aylesbury Vale, Searches 49, Ethnic Minority Searches 19, Per 1000 0.58, Ethnic Minority Disproportionality 3.32.

Windsor and Maidenhead, Searches 42, Ethnic Minority Searches 18, Per 1000 0.58, Ethnic Minority Disproportionality 2.97.

Cherwell and West Oxfordshire, Searches 52, Ethnic Minority Searches 10, Per 1000 0.41, Ethnic Minority Disproportionality 2.42.

Oxford, Searches 61, Ethnic Minority Searches 28, Per 1000 0.59, Ethnic Minority Disproportionality 2.05.

West Berkshire, Searches 46, Ethnic Minority Searches 6, Per 1000 0.46, Ethnic Minority Disproportionality 1.70.

Milton Keynes, Searches 116, Ethnic Minority Searches 39, Per 1000 0.48, Ethnic Minority Disproportionality 1.29.

Slough, Searches 85, Ethnic Minority Searches 57, Per 1000 0.56, Ethnic Minority Disproportionality 1.15.

Stop Search Drugs

This page examines drugs searches in TVP for the last quarter. Searches for drugs are consistently the biggest reason for a search to be conducted.

Please note this page include searches under the Misuse of Drugs Act and searches for psychoactive substances.

The visuals on the top row show the proportion of drugs searches where no action was taken vs an action being taken.

The table next to it shows the number of searches for drugs per LPA, searches of ethnic minorities, and then the per 1000 and disproportionality for ethnic minorities.

On the bottom row, you will find the top 10 outcomes related to drugs searches, and consistency of finding the object searched for.

Drugs Searches 2508.

Age

This page break down searches by Age Group for the last quarter.

The Line Graph at the top of the page looks at the number of searches of under 18s for the last 24 months, with Average, Min, and Max lines.

The Table on the bottom right breaks down breaks down the number of searches per age group, broken down by Local Police Area. Next to it, you can see the number of U18 searches by ethnicity.

Finally, the cards at the bottom show the number of Exposure of Intimate Parts Searches in the last quarter, the number of EIP strip searches of ethnic minorities, and the proportion of searches of under 18s where the individual searched was Male, and number of under 10s searched. Please note, the under 10s searches are most likely to be a data inputting error.

Not stated

NS. Not stated

Other

O2. Arab; O9. Any other

White

W1. British; W2. Irish; W3. Gypsy or Irish Traveller; W9. Any other white Background

Officer Perceived

Unknown; White - North European; White - South European; Black; Asian; Chinese, Japanese, SE Asian; Middle Eastern

Notes

All population statistics are taken from the 2021 Census published 29th November 2022.

Why use per 1000 population?

Showing the incidence rate per 1000 of population makes comparisons between different areas easier, especially when the population size in those areas differs.

Population table

Aylesbury Vale, Asian 18084, Black 5835, Mixed, 6419, Other 2393, White 171341, Total 204072

Bracknell and Wokingham, Asian 31764, Black 7312, Mixed 9422, Other 4547, White 249119, Total 302164

Cherwell and West Oxfordshire, Asian 11637, Black 3575, Mixed 6767, Other 2696, White 250616, Total 275291

Milton Keynes, Asian 35636, Black 27882, Mixed 11723, Other 5718, White 206081, Total 287040

Oxford, Asian 24984, Black 7506, Mixed 8998, Other 5920, White 114582, Total 161990

Reading, Asian 30845, Black 12538, Mixed, 8978, Other 5017, White 116888, Total 174266

Slough, Asian 74091, Black 12003, Mixed 6316, Other 8951, White 57117, Total 158475

South and Vale, Asian 9758, Black, 3769, Mixed 6869, Other 2711, White 264892, Total 287999

South Buckinghamshire, Asian 50210, Black 8398, Mixed 13137, Other 6325, White 270893, Total 348963

Windsor and Maidenhead, Asian 20085, Black 2365, Mixed 5232, Other 3291, White 122551, Total 153524

Total, Asian 313086, Black 93219, Mixed 87726, Other 48768, White 1972472, Total 2515271
